GIVEN FULL SWAY

Minister Bowen Clothed By Venezuela With Unrestricted Authority to Act.

NO LIMIT TO HIS POWER

The American Minister Is Commissioned As Venezuela's Sole Representative In Arbitration.

Caracas, Dec. 19.—The allies yesterday notified the Venezuelan authorities at La Guayra of the blockade to become effective tomorrow at 3 p. m. of the ports of La Guayra, Port Cabello, Coro, Maracaibo, Carupano and Barcelona.

Caracas, Dec. 19.—Lopez Baralt, Venezuelan minister of foreign affairs, has transmitted to United States Minister Bowen a document signed by President Castro as constitutional president of the republic and countersigned by himself as minister of foreign affairs, in which Mr. Bowen is recognized as the only representative of Venezuela in the matter of effecting a settlement of the present difficulty.

According to the terms of this document Mr. Bowen may act without restriction, and he is to use all means possible to protect the interests of Venezuela. The document was subjected to correction Wednesday night and again yesterday before delivery. The state department at Washington has been notified of the transmission of this instrument to Mr. Bowen.

Events here are dependent upon the receipt through the state department of the answers of the governments of Great Britain, Germany and Italy to the proposal of arbitration advanced by Venezuela; these answers are expected today. Should they be favorable the Venezuelan government strongly desires that a conference of the ambassadors of Great Britain, Germany and Italy to the United States then be held in Washington and that Mr. Bowen leave La Guayra Dec. 23 for the United States on board the "Red D" line steamer Caracas, which is due to reach New York Dec. 29. Mr. Bowen will meet the ambassadors in Washington. No meeting to discuss terms of settlement is to be held on Venezuelan soil.

A WAR BLOCKADE

Formal Recognition of Warfare On Part of Allies.

Washington, Dec. 19.—As understood here, the blockade to be declared by the allies against Venezuela on Saturday is to be a "war blockade" as contrasted with the "peace blockade" which has been in operation since the trouble with Venezuela assumed an acute stage. A legal blockade is sometimes preceded by a declaration of war, but at times this formality is dispensed with and a blockade maintained just as though war had been formally declared. To all intents and purposes war has existed and such condition has been recognized by the governments of the allies. A formal declaration that a blockade has been established will be sent to all the powers and it will be recognized by the United States government. Following the practice in such cases this government will maintain an attitude of neutrality toward the belligerents, which they practically become by the

Many a man would better go without lunch at all than eat the hurried lunch which forms the noon-day meal of many a business man. Hasty eating, foods hard to digest, and no time allowed for digestion are the cause of many a case of stomach "trouble."

Disease of the stomach seriously threatens the health of the whole body and should be promptly cured. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and the organs of digestion and nutrition. It enables the perfect assimilation of food and the proper nutrition of the body on which physical strength depends.

"Nine or ten years ago my health became very poor, and in 1892 was so far gone that good doctors pronounced my case the worst they had ever treated," writes Mr. Harvey Phelps, of Florence, Ala. "I had acute stomach trouble, liver complaint, catarrh and was nervous with an extent I could not sleep. I finally got three bottles of Dr. Pierce's Golden Medical Discovery and some 'Pellies.' Took them according to directions on the bottles, and in a few days noticed a decided improvement. I commenced to get more rest at night and could eat with pleasure, where formerly food was like chips to me. When I had used three bottles of the 'Discovery' I was a new man; could eat mince pie for supper, go to bed at seven P. M. and sleep until seven A. M. I am now working at my trade (carpentry), every day in all kinds of weather, and think if I had not taken your medicine I would now be under the sod."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

establishment of the blockade, although whether a presidential proclamation announcing our neutrality to the world will be issued has not been decided upon. The matter will come up for definite determination very soon. Our government is formally informed of the intention of the allies in the movements they are making in the operations against Venezuela.

The notice about the issue of the formal blockade of Venezuelan ports is not understood here to mean that Minister Bowen's efforts to adjust the Venezuelan difficulties have failed. It was conceived that the naval commanders of the powers were acting upon explicit instructions which included the establishment of a blockade, and it was not expected that the instructions would be suspended until the negotiations through diplomatic channels had assumed a phase indicative of a final and satisfactory adjustment. As Minister Bowen was only yesterday appealed to, to endeavor to effect such an adjustment, he has had as yet no opportunity of moving forward in his negotiations to a point where he might reasonably expect the allied powers to cancel completely the remainder of their punitive program. Therefore it is to be expected that the threatened blockade will be duly published tomorrow unless in the meantime Minister Bowen is able to offer sufficient assurances that the Venezuelan government is ready to meet the terms of the ultimatum. It can be stated positively that the assurance will not include a direct guarantee by the United States of Venezuela's liabilities.

Created Bad Feeling.
La Guayra, Dec. 19.—The German cruiser Falke, which has been anchored for the past two days at the entrance of Lake Maracaibo, yesterday captured the Venezuelan schooner Victoria. After cutting down her main-mast, thus disabling her, the Germans abandoned the vessel. This action has caused great indignation among the Venezuelans, and excitement runs high at Maracaibo, where the people have been parading the streets, uttering cries against Great Britain and Germany.

Belgium's Claim.
Brussels, Dec. 19.—It is given out here that Germany is supporting the claims of Belgium against Venezuela, which amount to \$1,250,000.

NOTHING DEFINITE

British Cabinet Meeting Was Fruitless of Results.

London, Dec. 19.—It is not apparent that anything definite has resulted from yesterday's cabinet meeting with regard to the transmission by the government of the United States of Venezuela's request for arbitration. Mr. White, charge d'affaires, was in touch with the foreign office throughout the day. He transmitted a long dispatch to the state department at Washington, but this communication is not believed to contain anything in the nature of final decision. All negotiations are being conducted with extraordinary secrecy, but it is thought probable that Mr. White's dispatches to Washington have conveyed inquiries from the British government with regard to Secretary Hay's views as to the possibility of Venezuela carrying out the award of arbitration. It is authoritatively said that Great Britain is making strenuous efforts to induce the United States to guarantee Venezuela's compliance with the findings of arbitration. Inquiries made at the foreign office subsequent to the cabinet meeting brought no response. The announcement that President Castro had entrusted United States Minister Bowen with full powers to arrange a settlement was received at the foreign office with much interest, accompanied by the remark, "So Mr. Bowen is to be arbitrator?" The dispatch which contained this announcement was immediately taken to Foreign Secretary Lansdowne; it apparently conveyed to the foreign office officials the first definite news that such action had been taken.

A MERE EPISODE

That Is the Way Germany Regards the Adair.

Berlin, Dec. 19.—The fact which impresses the foreign observer here is the quiet indifference of the newspapers and people toward the Venezuelan affair. Not a Berlin newspaper has a leading article on the subject, and the news published is largely an abstract of what the London and New York papers are saying. The Germans appear to be astonished at the commotion in Great Britain and the United States over what is regarded here as a mere episode. Few of the German newspapers have correspondents in New York, but those who are there telegraph that Germany is seemingly without one friend in the country and trace the cause to Germany's alleged attitude toward the United States during the Spanish-American war. The popular feeling in Great Britain against co-operation with Germany is attributed here to the German people's bearing toward Great Britain during the South African war. But if public opinion is little concerned as yet over Venezuelan affairs, the foreign office here is extremely sensitive over the developments of public feeling abroad, especially in the United States. The reason for delay in doing anything that would change the situation either by replying to Venezuela's proposition made through Minister Bowen, issuing blockade regulations or taking any forward step, is because it is thought better to remain passive for a few days and see how far public feeling in America will go. Indications are not wanting that the

German government is seeking an expedient to arrive at a solution of the difficulty without anything further happening to vex the people of the United States, whose good will is considered to be more important than the humiliation of Venezuela.

FOR GOVERNOR

Congressman Hemenway Is Now Actively in the Field.

Indianapolis, Dec. 19.—Congressman Overstreet is the first member of the Indiana delegation to return for the holiday. He arrived here yesterday afternoon. Congress does not adjourn until Saturday, but there was no work for his committee, so he left in advance. Overstreet is taking special interest now in getting an additional \$400,000 for the new federal building in this city. He thinks the money will be paid shortly after the holidays. He does not know when Senator Fairbanks is coming back. The most interesting bit of gossip that has been brought back to Indiana regarding the Hoocher delegation at Washington is that Congressman Hemenway has finally definitely determined to become a candidate for the Republican nomination for governor in 1904. He has been prominently mentioned for governor for some time, but when it was announced that he would succeed to the head of the congressional committee on appropriations, it was thought that he would not enter the race. It is generally conceded that he will be a hard man to beat. The southern part of the state has not been represented in the chief executive's office for many years, which fact will have much to do with making Hemenway's candidacy dangerous to the others.

Warren Bigler of Wabash has taken charge of the candidacy of his fellow townsman, Warren Sayre, for speaker of the house. In his usual quiet way he slipped into Indianapolis today and again, almost before the newspaper boys could get sight of him. Bigler was willing to admit that he thinks his man has a good chance, and Bigler is regarded as a shrewd, careful politician. He is visiting the legislators at their homes and many, he says, are unpugged. He does not think that Henry W. Marshall has the speaking stow away, as the friends of the Lafayette men indicate. Bigler says that Sayre is active and has been touring the northeastern part of the state in his own interest. Bigler has been prominently mentioned as chief deputy under Auditor of State Sherrick. He can have the place if he wants it, but he has not made up his mind.

The program for the forty-ninth annual session of the Indiana State Teachers' association in Indianapolis Dec. 29, 30 and 31, was issued today. It is in book form covering 28 pages. The meetings will be held principally in the statehouse and Masonic hall. The grand hotel has been selected as headquarters. The railroads are offering a rate of one and one-third fare, and it is expected that over 1,000 educators will attend. The committee has endeavored to prepare a program of special interest. The most prominent educators of the state are to read and discuss papers and there will be a number of educators of national prominence here. The legislative committees of the teachers, superintendents and school boards will be in session at the same time, so altogether it will be a period of great importance and interest to educators.

G. L. Watson of Cayuga, representative for Vermillion and Vigo counties, is writing letters to members throughout the state, telling them that the Fifth district is sold for Marshall for speaker. If this be true then Marshall has made greater headway than his opponents suspected, although it was known that the Lafayette man has a majority of the Fifth district members. The Fifth is a big factor this time, as it has eight Republican members. It is understood that six of them met at Terre Haute a few days ago and declared themselves for Marshall. Branch of Martinsville has not come into the open for Marshall, but it is said that he will probably join the other members of the district. With the Fifth and Tenth districts solid, Marshall will be more formidable than figured up to date.

Dewey's Fleet.
Washington, Dec. 19.—According to the approved plans, the principal fighting ships of Admiral Dewey's fleet will rendezvous at the Island of Trinidad right off the coast of Venezuela, and at St. Thomas, near Porto Rico. Although not so stated, it is expected that Admiral Dewey will retain the converted cruiser Mayflower as his flagship and will spend most of the ten days' holiday at San Juan. He is now at Culebra with the bulk of his immense fleet.

Death Sentence.
Upper Sandusky, Ohio, Dec. 19.—Philip Nagel was yesterday afternoon found guilty in the first degree without recommendation of mercy, for killing William Wade, and will be sentenced to death by electrocution. The motive for the murder was robbery, Wade having on his person at the time of the murder about \$50, which represented the savings of a season's work as farmhand. Nagel and Wade had been bosom companions.

Smithson Convicted.
Greencastle, Ind., Dec. 19.—The jury in the Smithson murder case returned a verdict last night against the defendant, which means a penitentiary sentence of from two to twenty-one years. The court pronounced sentence today. The crime of which Smithson is convicted is the murder of John Boswell last September.

Mining Commission Hearing the Operators Views On Strike.

REAL REIGN OF TERROR

Non-Union Miners Testify to Conditions Which They Were Compelled to Face.

Chairman Gray Delivers Himself of An Opinion Regarding Boycotts.

Scranton, Pa., Dec. 19.—The coal strike commission listened yesterday to further testimony tending to show that a reign of terror existed in the anthracite coal fields during the five and a half months of the mine workers' strike. About a score of witnesses were called during the two sessions by the attorneys for the non-union men. They told of serious boycotts, brutal attacks by crowds of men, women and boys, and an attempt to burn the house of a non-union man. In most instances the witnesses testified

JUDGE GEORGE GRAY.

that the alleged offenders were members of the miners' union. The lawyers for the miners objected frequently to the admission of testimony on hearsay and sometimes objected because of irrelevancy of certain other statements. Chairman Gray said the commission was not bound by any strict rules of evidence, but asked counsel to confine themselves in examining witnesses as far as possible to direct evidence. He said it was too difficult, in trying to prove that boycotts existed, to get information on the subject. The commission, he said, wanted to know whether a reign of terror existed in the anthracite region, and if it could not get that information if the strict rules of evidence were applied. "The coward who will go to the storekeepers," he said, "and tell him not to sell the necessities of life to a poor woman, usually seeks the obscurity that the law of evidence throws around him. If a girl is discharged from her position in a store because she rode in a streetcar in inclement weather, while a streetcar strike was on, the coward who discharged her is coward enough to refuse to testify." He recognized, he said, why some merchants will not come forward and tell who forced him to refuse to sell the necessities of life to certain boycotted persons, but if he (Chairman Gray) were a storekeeper he thought he would risk his all in order to assist in breaking up the cowardly business.

Several witnesses testified that their wives were insulted on the streets, that their children were beaten by other children and could not be sent to school, that local unions requested storekeepers to refrain from selling goods to anyone related to a man working in the mines; that their houses were stoned; that they were stoned, shot at and hanged in effigy, and that life was generally made miserable for them and their families. Most of the witnesses connected strikers with the offenses alleged.

The lawyers for the non-union men say they will continue to call witnesses to prove that a reign of terror existed during the strike. The commission will adjourn tomorrow and will convene in Philadelphia Jan. 5.

Accident or Suicide.
Louisville, Ky., Dec. 19.—It has developed that R. C. Wayne, a Louisville business man who was found dead Wednesday night in the vicinity of Jacob Park with a gunshot wound in the breast, carried insurance on his life of \$340,000, and had applications pending for \$50,000 more. It was upon the fact that Mr. Wayne carried such a large life insurance and was said to be suffering from rheumatism that a theory of suicide is based. Near Mr. Wayne's body when found, but on the opposite side of a wire fence, was a shotgun with one barrel empty and the other loaded and cocked. His family and friends declare that death was due to an accident and that the gun was discharged while he was climbing through the fence.

Agreement Reached.
Washington, Dec. 19.—The conferees of the senate and house of representatives of the anthracite coal strike commission bill have reached an agreement. The report will be made to the senate on Saturday. It is understood that most of the senate amendments were retained.

A Bloodless Face Indicates Trouble.

Watery Blood a Menace to Health.

WE KNOW HOW PALE PEOPLE CAN GET RICH RED BLOOD.

COME AND LET US TELL YOU ABOUT VINOL

When blood is watery and thin, or, as doctors would say, lacks red blood corpuscles, it is a sign that much is radically wrong.

We would advise everyone who has such symptoms to start at once to take a proper remedy to overcome this trouble.

That remedy is Vinol, the greatest and most modern tonic and re-builder. Vinol owes its virtue to the fact that it contains in a highly concentrated state the active curative principles extracted from cod's livers, the same elements that have made cod-liver oil famous for wasting diseases.

These medicinal elements are dissolved in a delicious table wine so that Vinol is most palatable.

None of the vile-smelling obnoxious grease that characterizes cod-liver oil and frequently makes it an impossible remedy for those who should take it, is found in Vinol.

We could relate many instances where Vinol has done good and restored the roses of health to the pale cheeks of the sufferer.

The following is a fair sample of the way people write in regard to Vinol: "For several months I suffered lassitude and tired all the time. Also a sinking feeling in my stomach, which nothing would relieve, and I was pale and weak. As an experiment I tried Vinol and if I wrote pages I could not tell all it has done for me."—Mrs. A. K. LA PRUSCH, Amesbury, Mass.

Because we know Vinol so well, and because we know so surely what it will do, and how it will accomplish the good it does in a scientific way, we unreservedly endorse and recommend it, and in every instance guarantee to refund to any one what they pay us for Vinol if they do not find it entirely satisfactory.

House Shows Its Attitude On Tariff Reduction.

Washington, Dec. 19.—The house yesterday passed the bill to reduce the duties on the products of the Philippine Islands coming into the United States from 75 per cent of the Dingley rates (the present duties) to 25 per cent of those rates. The discussion of the bill was accompanied by considerable maneuvering on the Democratic side to secure votes on various amendments designed to lower the tariff barrier still further, and a record vote was forced on a motion to recommit with instructions to report a bill providing for absolute free trade with the islands. The discussion on this proposition was on party lines, with the exception of Mr. McCall (Rep., Mass.), who voted with the Democrats.

A CABINET DINNER

Marks Formal Reopening of the White House.

Washington, Dec. 19.—The president and Mrs. Roosevelt gave a dinner at the White House last night in honor of the cabinet. A large number of guests were invited. It was the first formal evening function at the White House since its remodeling and gave the guests an opportunity to view the many changes which have been made in the interior of the mansion. The table was set in the new state dining-room, which has been considerably enlarged, thus obviating the necessity of holding the large dinners in the east room, to which resort was made during the last season. The room is finished in English oak. The table was set in the form of a semi-circle and the decorations were red and white roses.

Funeral of Mrs. Grant.

Washington, Dec. 19.—Arrangements have been completed here for the funeral of the late Mrs. Julia Dent Grant. There will be funeral services at the Metropolitan Methodist church in this city at 9:30 o'clock Saturday morning, the Rev. Frank M. Bristol officiating. Immediately after the services at the church the funeral party will proceed to the Pennsylvania railroad station and take the 11 o'clock train for New York city. The Grant Monument association will take charge in the metropolis, meeting the body at Jersey City and taking it on the steamer Meigs to the Grant tomb in Riverside drive, where Grant Post J. A. R. will serve as a guard of honor. The committal service will occur at the tomb Sunday morning at 11 o'clock, Bishop Andrews officiating. Special military honors will be paid the dead woman and all the army and naval officers in New York city and vicinity will attend in full dress uniform.

NONE SUCH MINCE MEAT

MAKE NO MISTAKE.

NONE SUCH MINCE MEAT comes in airtight packages (the contents just moist enough to preserve all the qualities of the fruits, spices and stock) not in messy pails or in bulk. It is clean, pure and wholesome—quite different from the so-called "wet" mince meats, but cheaper, because you do not pay for the "wet" as in the other kinds. You buy the mince meat and add the water yourself. NONE SUCH is a home-made, pure food, and is favored everywhere for making pies "like mother used to make." All the goodness of mince meat made in your own kitchen. The users of 17,000,000 packages last year say so.

No other mince meat condensed or wet, is a substitute for NONE SUCH. Order NONE SUCH and stick to it. Each ten cent package contains enough for two pies, a fruit cake, a pudding or a batch of cookies. All grocers. Merrell-Soule Co., Syracuse, N. Y.

THE state board of Education doubtless acted wisely in deciding to have the school books used in the public schools revised instead of calling for new contracts for other books. The expense to the parents would have been much greater had a change to a different series of books been made. Some of the books now in use need revision, especially the arithmetics which are poorly graded. But they can be made all right by a careful revision. The state board of Education has shown that it can stand out against the pleadings of the school book trust.

Sprained His Ankle.

Thursday evening Elmer Bollinger sprained his ankle, which has since been giving him considerable trouble. As he was coming out of the barn at his home he stepped on a small block of wood, which turned and caused him to fall. His ankle was thrown in a twist and badly sprained. It was intensely painful at the time and is still giving him trouble. It is badly swollen yet today.

SOUTHERN INDIANA ROAD.

Indianapolis News Reviews its Remarkable History.

The Southern Indiana railroad has about finished a net work of branches, switches and side tracks that will take in all of the important mines in Sullivan county, as well as those in the vicinity of Linton, and a few in Clay county.

The work has been going on quietly for a long time. General Superintendent Thompson, without letting anyone know what he was doing, got the right-of-way, and a great force of men has been at work. The road has secured a franchise, and in the early spring it is believed that trains will be running in to Sullivan regularly. This move has shut off several other roads that expected to get into the coal fields of Sullivan county.

The Southern Indiana has a remarkable history. Twenty years ago when D. J. Mackey was in the zenith of his fame as a builder of railroads, he conceived the idea of adding to his railroad system a line from Evansville to Richmond. The road was incorporated as the Evansville & Richmond, and a line was surveyed between the two cities. Subsidies were voted and in time a sort of road was built from Elora to Westport.

The line struggled along and finally went to the bad. Storms tore down the buildings, and floods swept away the track and right-of-way between Elora and Seymour. In a few years it was about the worst kind of a wreck that a railroad can be.

John R. Walsh, a Chicago banker and capitalist, was the owner of stone lands in Indiana, and he also got into the coal fields. He needed transportation services that would not eat all his profits in freight charges, and he bought the old Evansville & Richmond right-of-way. He spent millions of dollars on the road, and in a few years had a first-class line out of it. He built to Lewis and made track arrangements that put his trains into Terre Haute, and his road became a money maker.

Mr. Walsh also owns a little road over in Illinois, and in time he will connect it with the Southern Indiana. At present he is after a franchise at Evansville, and the understanding is that he is to build a line to that city.

Tyler Loses.

In the suit of Anna V. Davis against Dallas Tyler to set aside deeds to certain real estate in Washington, Judge Harris gave his decision at Bloomfield Wednesday. The court decided against Tyler holding that the deed by Tyler to his sister, Alvilda Tyler Graves was a voluntary conveyance without consideration in trust for Dallas Tyler, and the same so far as plaintiff's judgment is concerned is void, and the real estate described therein is liable to sale for satisfaction of plaintiff's judgment.

The property involved consists of two residences on West Main street and the building and lot on East Third street in which the "Office" saloon is now located. It is worth about \$8,000.

An Extensive Traveler.

Will Hubbard, who is spending the day here, is quite an extensive traveler for a cripple. He has no use of his legs whatever, yet he has traveled over 18,000 miles the past year and has been in twenty seven states. He goes from one city to another on the railroad, but he gets about in the cities and towns by the aid of crutches and a specially constructed tricycle. He was crippled in a railroad wreck several years ago. He has attended many Grand Army encampments and several national political conventions. He makes his way by selling a poem.

The Denver Express.

With a strong dramatic story, nicely told, plenty of neat up-to-date specialties and a wealth of beautiful scenery and mechanical effects. The Denver Express certainly contains every element of the successful melodrama. No more beautiful stage picture can be conceived than the first act setting, represent a valley in the heart of the Rocky mountains at sunrise. The wonderful railroad effect and the fight for life in the last act are also features worthy of special attention. Popular prices 25, 35 and 50c.

A TIMELY REMEDY.

Judge Breckenridge's Simple but Certain Cure for Hydrophobia.

Judge Robert J. Breckenridge, brother of Hon. W. C. P. Breckenridge, Kentucky's eloquent ex-Congressman, gives the following as a cure for hydrophobia which he has personally tested. Judge Breckenridge says:

Some years ago I cut out of a daily paper the following preventative of hydrophobia, and only a few days after I was bitten by a dog on the street, supposed to have been mad. I at once prepared and used it and never felt any evil effects from it. Since then I have had it published repeatedly and had many to use it with good results. It is known as the "Goodman Remedy" and was printed in the Country Gentleman of Philadelphia, and reads as follows:

"The time between the biting of an animal by a mad dog and showing signs of hydrophobia is not less than nine days, but may be nine months. After the animal has become rabid a scratch of the tooth upon a person, or a slobber coming in contact with a sore or raw place, will produce hydrophobia just as soon as if bitten by a mad dog. Hydrophobia can be prevented and I will give what is well known as an infallible remedy for man or beast if properly administered. A dose for horse or cow should be four times as much as for a person.

It is not too late to give the medicine any time before the spasms come on. The dose for a person is one and one-half ounces of elecampane root bruised, put in a pint of new milk, reduced one-half by boiling; take all at once in the morning, fasting till the afternoon, or at least, a very light diet, till after several hours have elapsed. The second dose same as first, except take two ounces of the root. Third same as second. To be taken every other day. Three doses are all that is needed, and there need be no fear, as I know from my own experience, and know of a number of cases where it was entirely successful.

This is no guess work, the persons alluded to have been bitten by their own dogs, which were then tied to see if they were really mad, and they proved to be so, and the remedy was effectual.

Electric Railway Talk.

There is some contention among the stock-holders of the Central Indiana Railway Co., the line to run from here to French Lick. Those who subscribed for stock did so conditioned that the line was to pass by way of Azalia and Reddington, not by the route west of the river.

A 5 per cent levy has been made on the amount of stock of each holder to pay the electric engineer for his services. A few stockholders residing near Azalia are contemplating withdrawing their stock, but it will be impossible for them to regain the 5 per cent levy.—Columbus Times.

A Million Voices.

Could hardly express the thanks of Homer Hall, of West Point, Ia. Listen why: A severe cold has settled on his lungs, causing a most obstinate cough. Several physicians said he had consumption, but could not help him. When all thought he was doomed he began to use Dr. King's New Discovery for Consumption and writes—"it completely cured me and saved my life. I now weigh 227 lbs." It's positively guaranteed for coughs, colds and lung troubles. Price 50c and \$1.00. Trial bottles free at W. F. Peter Drug Co.

BIG FLOOD DAMAGE

Reports From Evansville Indicate a Loss Up In Six Figures.

RIVER STILL RISING

The Loss to Lumber Men Already Is Estimated at Not Less Than \$100,000.

Farmers Along the Wabash Report a Great Deal of Corn Destroyed.

Evansville, Ind., Dec. 19.—The river is over thirty-seven feet today and still rising. A stage of thirty-nine or forty feet is looked for before the flood subsides. It is estimated that tie and lumber men along Green, Barren and Pond rivers have lost about \$100,000. Thousands of ties and logs have been lost. The waterworks plant above this city is surrounded by water and the workmen are forced to use skiffs in going to and from the plant. The farmers along Wabash river report a great deal of corn destroyed.

TO RECLAIM SWAMP

Another System of Drainage In the Kankakee.

Crown Point, Ind., Dec. 19.—Preliminary steps are under way in the northwestern counties of Indiana, including La Porte, Starke, Porter, Lake and Jasper, to erect what will probably be the largest artificial waterway of its kind east of the Mississippi river. When completed it will reclaim hundreds of thousands of acres of Kankakee marsh lands, which are now regarded as worthless.

A contract has been let for the first fourteen miles in La Porte and Starke counties for \$120,000. The ditch will be eighty feet wide and sixteen feet deep. It is the plan of the other counties to continue the great ditch to the Illinois line, a distance of sixty miles. The total cost will be about a million dollars.

The project has been taken up by the owners of large ranches along the Kankakee. The payment is to be made by assessments on benefits derived from the ditch.

Suspects Held.

Michigan City, Ind., Dec. 19.—Edward Mitchell, a negro, was arrested yesterday, and it is thought that he may know something of the murder of Grocer John Koonsman at South Bend. Henry B. Porter and John Franklin, two negroes, held for high-way robbery, may also know of the murder. When Mitchell was taken to jail he held a conversation in a whisper with one of the other two. The South Bend police have been notified of the arrests.

To Drive Out Wolves.

La Porte, Ind., Dec. 19.—A big wolf hunt which will occupy all of Christmas week is to occur in this county beginning next Monday. Wolves have become very daring in the south part of the county, the animals taking refuge in the Kankakee marsh. Several packs have their lairs in this region, and have made numerous attacks on the live stock of farmers.

Hunting Accident.

Liberty, Ind., Dec. 19.—Roscoe Job, sixteen years old, was shot and perhaps fatally injured in the woods west of here. He and his brother, Charles Job, were hunting. Roscoe was some distance in front and the gun of his brother was accidentally discharged. The bullet struck Roscoe in the left side.

Lever Driven Through Lung.

Greensburg, Ind., Dec. 19.—Lon Wyley, about twenty-five years old, was fatally injured yesterday in the yards of the Big Four railroad. A lever attached to a coupling pin ran into Wyley's lung the full length of the lever, and physicians say he cannot recover.

Corn Shredder Mishap.

Paoli, Indiana, Dec. 19.—Anderson Street, a farmer near Orangeville, while operating a corn shredder, had his hand caught in the machine and the member was badly lacerated. This is the fifth corn shredder mishap in this section this season.

Drivewheel Let Go.

Dillsboro, Ind., Dec. 19.—The shaft in the drive wheel of the large engine at the Karmire & Swain sawmill broke yesterday. The engine was torn to pieces, and no part of it can be used again. The loss was about \$3,000. No one was hurt.

A More Serious Charge.

Richmond, Ind., Dec. 19.—Frank Cook, who escaped from the county jail here while awaiting trial on a charge of larceny, has been arrested at Cleveland on the charge of murdering a Dayton man a week ago.

Indictment Returned.

Goshen, Ind., Dec. 19.—Dr. Harry Gulymer, the young Elkhart dentist who shot his sweetheart, Lula Barney, has been indicted on the charge of assault with intent to kill. Miss Barney is still confined to her bed.

Vote Sellers Indicted.

Bloomfield, Ind., Dec. 19.—The grand jury has returned 155 indictments, forty-two of them being against men who sold their votes at the last election.
